Special Interest Story

Dear Refuge,

I moved to San Antonio over a year ago and one month later found out I was pregnant again with my third child. At the time my 3 year old was still in diapers and we had no income. We weren't sure what we were going to do or how we were going to make it. We kept praying to God that something would come up. Two months after the move my husband's aunt found us a place to live in Pleasanton. Things were starting to look up a little, but we were still praying for help with our other needs. One day at the library, we saw the flyer for The Refuge and the next day we went to see if they could help us out. They were nice, friendly and very helpful! The Refuge has helped us so much! Through the earn as you learn program we were able to get diapers and wipes, and could get things for the new baby coming that is now 8 months old and very blessed with everything she needs. My husband and I were able to take Childbirth classes that helped me feel a lot more at peace. I was also able to make friends for which I am very grateful, because all my friends and family were back in Missouri. So not only did The Refuge help us with our needs for our kids, our knowledge, and peace of mind, but also through them, we found some great relationships. The Refuge has changed our lives, and we are so grateful to them. We are hoping that some day soon we can help them in return; so they can continue to bless others just as they have blessed us.
